

FIRE RETARDANT "THERMAL BARRIER COATING"

FLAME SEAL TB-C[™]

SAFETY DATA SHEET

	SECTION 1	PRODUCT & COMPANY INFORMATION
1.1	Product Identifier	
	Product Name	FLAME SEAL TB-C [™] "THERMAL BARRIER COATING"
	Brand	Flame Seal Products, Inc.
	CAS #	NA/mixture
1.2	Relevant identified u	uses of the substance or mixture and uses advised against
	Identified uses	Intumescent fire retardant coating.
1.3	Details of the Suppli	ier of the Safety Data Sheet
	Company	Flame Seal Products, Inc.
		15200 West Drive
		Houston, TX 77053 USA
	Telephone	713-668-4291
	Fax	713-668-1724
1.4	Emergency telephor	ne number
	Emergency #	800-424-9300

	SECTION 2	AZARDS IDENTIFICATION	
2.1	Classification of the substance or mixture		
	GHS Classification in ac	cordance with 29 CFR 1910 (OSHA HCS)	
	Eye irritation Category 2E	3, Skin irritation Category 3.	
2.2	GHS Label Elements, ir	ncluding precautionary statements	
	Hazard Statements	WARNING	
	H316:3	Causes mild skin irritation.	
	H320 : 2B	Causes eye irritation.	
	Precautionary Stateme	ents	
	P202	Do not handle until all safety precautions have been read and understood.	
	P264	Wash skin thoroughly if exposed.	
	P280	Wear eye/face protection.	
	P281	Use personal protection equipment as required.	
	P305 + P351 + P338	In case of eye contact: rinse thoroughly with eyelid(s) held open. Remove contact lenses, if worn.	
	P332 + 313	If skin irritation occurs: get medical advice/attention.	
	P337 + P313	If eye irritation persists: get medical advice/attention.	
2.3	Other Hazards		
	H303	May be harmful if swallowed.	

For the full text of the H-Statements mentioned in this section, see Section 16.

SDS v1.1 | Date : 02/09/2016

SAFETY DATA SHEET

	SECTION 3	COMPOSITION/INFO	RMATION ON INGRE	DIENTS	
3.1	Substances				
	Formula		*Proprietary aminic phosp	bhate polymer in water	52 +/- 5%
			*Proprietary performance	additives (non hazardous)	14 +/- 5%
			Titanium Dioxide	CAS # 13463-67-7	2 +/- 1%
			Water	CAS # 7732-18-5	32 +/- 5%
	Hazardous Compon	ents	CAS #	Classification	Concentration
	Aminic Phosphate Pol	lymer		eye (2B), mild skin irritant (3)	52 +/- 5%
	Titanium Dioxide		13463-67-7	See section 11	2 +/- 1%

* Components are a Company Trade Secret – Business Confidential. Flame Seal Products Inc. is withholding the specific chemical identity under provision of the OSHA Hazard Communication Rule Trade Secrets (1910.1200(i)(1). The specific chemical identity will be made available to health professionals in accordance with 29 CFR 1910.1200(i)(1)(2)(3)(4).

	SECTION 4 FIRST AID MEASURE	S
4.1 Description of first aid measures		
	General advice	Use good industrial hygiene procedures.
	If inhaled	Not expected to be an issue in low quantities. Wear respirator rated for organic mist in if adequate ventilation is not available.
	In case of skin contact	Wash with soap and plenty of water. If irritation occurs, get medical advice/attention.
	In case of eye contact	Flush eyes with plenty of fresh water while holding eyelids open. Remove contact lenses if worn. If eye irritation persists, get
		medical advice/attention.
	If swallowed	Do not induce vomiting. Never give anything by mouth to an unconscious person. Flush mouth with water. If conscious give
		water to further dilute chemical. Consult physician.
4.2	Most important symptoms and effects,	The most important known symptoms and effects are described in the labelling (see section 2.2) or in Section 11.
	both acute and delayed	
4.3	Indication of any immediate medical attention	No data available
	and special treatment needed	

 SECTION 5
 FIRE FIGHTING MEASURES

 5.1
 Extinguishing media
 Not combustible (use water spray, fog, foam, dry chemicals, CO₂ or other agents as appropriate for material in surrounding fire).

 5.2
 Special hazards arising from substance or mixture
 Heating and/or burning may liberate small amounts of ammonia, oxides of nitrogen and phosphorus.

 5.3
 Advice for firefighters
 Not combustible (use safety equipment which is suitable for materials in surrounding fire).

 5.4
 Further information
 No data available

	SECTION 6 ACCIDENTAL RELEA	ASE MEASURES
6.1	Personal precautions, protective equipment	Use personal protective equipment. Avoid breathing mist. Ensure adequate ventilation. Evacuate personnel from affected area.
	and emergency procedures	For personal protection, see Section 8.
6.2	Environmental precautions	Prevent further leakage or spillage, if safe to do so. Keep out of public sewers and waterways.
6.3	Methods and materials for containment	Confine spilled material and absorb with sand, sawdust, earth or other available solids. Sweep up and place in a suitable
	and cleaning up	container for disposal.
6.4	Reference to other sections	See Section 13 for further disposal info.

Flame Seal Products, Inc. 15200 West Drive, Houston, TX 77053 USA www.flameseal.com | 713-668-4291 (office) | 713-668-1724 [fax] | Emergency No. (Chemtrec): 800-424-9300

SDS v1.1 | Date : 02/09/2016

SAFETY DATA SHEET

	SECTION 7 HANDLING & STOP	RAGE
7.1	Precautions for safe handling	Wear appropriate protective equipment. Provide adequate ventilation. See Sections 2.2 and 8.
7.2	Conditions for safe storage,	Keep container tightly sealed when not in use. Use good industrial practices to avoid spills.
	including any incompatibles	
7.3	Specified end use	ULC certified fire protective coating for spray-applied polyurethane foamed plastic.

SECTION 8 EXPOSURE CONTROL/PERSONAL PROTECTION

8.1	Control Parameters				
	Components with workplace control parameters:			ACGIH	OSHA
	Titanium Dioxide (respirable form)	CAS # 13463-67-7	EC # 236-675-5	10mg/m3 TLV-TWA	15 mg/m ³
				respirable fraction 1 mg/m3	Total dust 8 hr TWA
	Engineering Controls	Handle in accordance with goo	od industrial and safety practice	es. Wash hands after handling.	
	Personal Protection Equipment	Respiratory Protection	For heavy mist exposure, us	e a NIOSH/MSHA approved respi	rator suitable for use with
		(Specify Type)	organic vapors if proper ven	tilation cannot be provided.	
		Remediation or sanding	Contains titanium dioxide w	hich is considered a potential hum	an carcinogen in respirable
			form. Do not breath dust. Us	e measures to control dust to publi	ished exposure level limits.
			Otherwise wear NIOSH suit	able respirator for hazardous dust	– N100, P100, R100 filters.
		Protective Gloves	Wear impervious gloves as r	ecessary to avoid excessive skin c	contact (i.e. rubber or neoprene)
		Eye Protection	Protective glasses or goggles	in heavy mist areas.	
		Other Protective	Adequate clothing to minim	ze direct contact with skin.	
		Equipment			
	Ventilation	Local Exhaust	Use exhaust fans if necessar	y to control mist or vapor.	
		Mechanical (general)	Normal room ventilation.		
		Special	NA		

	SECT	10N 9	PHYSICAL PROP	ERTIES AND CHEMICAL PR	OPER	TIES	
9.1	Information on Basic Physical & Chemical Properties		-				
	a)	Appearance		White liquid	k)	Vapor pressure	No data available
	b)	Odor		None	L)	Vapor density	No data available
	c)	Odor thresho	ld	NA	m)	Relative density	1.37 - 1.49
	d)	рН		2.1 - 3.1	n)	Water solubility	Completely soluble
	e)	Melting/freez	zing point	NA/~30 °F	o)	Partition coefficient n-octanol/water	No data available
	f)	Initial boiling	point	~212 °F	p)	Auto ignition temp	None
	g)	Flash point		None to boiling	(p	Decomposition temp	No data available
	h)	Evaporation r	ate	No data available	r)	Viscosity	500 - 650 cP Brookfield
	i)	Flammability	,	None	s)	Explosive properties	No data available
	j)	Upper/lower	flamm limits	No data available	t)	Oxidizing properties	No data available

	SECTION 10 STABILITY & REACT	ΙΫΙΤΥ
10.1	Reactivity	No data available
10.2	Chemical Stability	Stable under recommended storage conditions.
10.3	Possibility of hazardous reactions	None known
10.4	Conditions to avoid	Evaporation - Keep container sealed tightly when not in use.
10.5	Incompatible materials	Strong bases and alkalis
10.6	Hazardous decomposition products	Phosphorous, nitrogen oxides

Flame Seal Products, Inc. 15200 West Drive, Houston, TX 77053 USA

SDS v1.1 | Date : 02/09/2016

SAFETY DATA SHEET

Information on toxicological effects (Undiluted	
Acute toxicity	LD50 Oral (rat) > 2000 mg/kg
	LD50 Dermal (rat) > 5000 mg/kg
	Conclusion drawn from relevant literature and similar product documentation.
Inhalation	Not established. Not expected to be harmful. If necessary, use respirator if adequate ventilation is not possible to keep exp
	to particulate matter at a minimum in heavy mist areas when spraying.
Dermal	May be irritating with continual contact.
Skin corrosion/irritation	No available data
Serious eye damage/eye irritation	May cause moderate eye irritation if exposed.
Respiratory or skin sensitization	Prolonged exposure may cause skin reddening.
Germ cell mutagenicity	No data available
Carcinogenicity	Titanium Dioxide – Respirable form
IARC	Group 2B: Possibly carcinogenic to humans.
	(a) Although IARC has classified titanium dioxide as a possible carcinogenic to humans (2B), their summary concludes: "
	significant exposure to titanium dioxide is thought to occur during the use of products which titanium dioxide is be
	to other materials, such as paints."
	(b) OSHA does not regulate titanium dioxide as a carcinogen. However, under 29CFR 1910.1200 the SDS must conve
	fact that titanium dioxide is a potential carcinogen to rats. See additional information below.
	Note : Normal application procedures for this product pose no hazard as to the release of respirable titanium dioxide dust,
	but grinding or sanding dried films of this product may yield respirable titanium dioxide. Use appropriate protection.
Reproductive toxicity	No data available.
Specific organ toxicity (single exposure)	No data available
Specific organ toxicity (repeated exposure)	No data available
Aspiration hazard	No data available.
Additional Information	In lifetime inhalation studies rats were exposed for 2 years to Titanium Dioxide Pigment - Dry Grades at 10, 50 and 250 r
	of respirable TiO,. Slight lung fibrosis was observed at 50 and 250 mg/m3 levels. Microscopic lung tumors were also obs
	in 13 percent of the rats exposed to 250 mg/m ³ , an exposure level that caused lung overloading and impairment of rat lung
	clearance mechanisms. In further studies, these tumors were found to occur only under particle overload conditions in a
	uniquely sensitive species, the rat, and have little or no relevance for humans. The pulmonary inflammatory response to Ti
	particles exposure was also found to be much more severe in rats than in other rodent species.
	In February 2006, IARC re-evaluated Titanium dioxide as pertaining to Group 2B: "possibly carcinogenic to humans", ba
	upon inadequate evidence in humans and sufficient evidence in experimental animals for the carcinogenicity of titanium
	dioxide. IARC evaluation guidelines consider the generation of tumors, in 2 different studies within the same animal spec
	be adequate criteria for an assessment of sufficient evidence.
	The conclusions of several epidemiology studies on more than 20000 TiO, industry workers in Europe and the USA did
	not suggest a carcinogenic effect of TiO, dust on the human lung. Mortality from other chronic diseases, including other
	respiratory diseases was also not associated with exposure to TiO, dust.
	Based upon all available study results, DuPont scientists conclude that titanium dioxide will not cause lung cancer
	chronic respiratory diseases in humans at concentrations experienced in the workplace.

Flame Seal Products, Inc. 15200 West Drive, Houston, TX 77053 USA www.flameseal.com | 713-668-4291 (office) | 713-668-1724 (fax) | Emergency No. (Chemtrec): 800-424-9300

SDS v1.1 | Date : 02/09/2016

SAFETY DATA SHEET

	SECTION 12	ECOLOGICAL INFORM	MATION
12.1	Toxicity		No data available
12.2	Persistence & degra	dability	No data available
12.3	Bioaccumulation po	tential	No data available
12.4	Mobility in soil		No data available
12.5	Results of PBT & vP	vP assessment	Not required. Not conducted.
12.6	Other adverse effect	ts	No data available

	SECTION 13 DISPOSAL CONSIDER	RATIONS	
13.1	1 Waste treatment methods		
	Product	Incinerate or mix with T50 curing agent and allow mixture to solidify, then bury in a suitable land fill where permitted by local	
		regulations. Or contact a licensed disposal facility.	
	Contaminated packaging	Dispose of a unused product	

SECTION 14	TRANSPORT INFORMATION	
DOT (US)	Not dangerous goods	
IMDG	Not dangerous goods	
IATA	Not dangerous goods	

SECTION 15 REGULATORY INFO	RMATION		
SARA 302 Components	No chemicals in this product are subject to the reporting requirements of SARA Title III, section 302.		
SARA 313 Components	This product does not contain any chemical components with known CAS numbers that exceed the threshold (DeMinimis)		
	reporting levels established by SARA Title III, section 313.		
SARA 311/312	This product does not contain any SARA 311/312 hazards.		
	Chronic health hazard.		
New Jersey, Pennsylvania, Massachusetts	Titanium Dioxide	CAS # 13463-67-7	REV. date 1994-04-01
Right to Know Components			
Clean Water Act	Section 311 lists phosphorous as a hazardous substance, which if discharged into or upon water, will present an imminent		
	and substantial danger to public welfare. Spills of >= 5000 pounds (approx. 50,000 pounds of FSTB) must be reported to th		
	National Response Center @ 1-800-424-8802.		
California Prop. 65	WARNING! This product contains a chemical known to the state of California to cause cancer in respirable form. Titanium Dioxide.		
WHMIS	D2A – Carcinogen as respirable dust. Titanium Dioxide.		
IARC	Group 2B - Possible human carcinogen - as respirable dust. Titanium Dioxide.		
RTECS #	XR 2275000		

Titanium dioxide included in the Candidate List of Substances of Very High Concern (SVHC) according to Regulation(EC) No. 1907/2006(REACH) - Respirable form.
